

Technical libraries made simpler Witherby eBook Reader

A comprehensive library of technical publications all through a single common user interface that is incredibly easy to use.

More information at your fingertips. With 600 nautical publications all in one place, the Witherby eBook reader is the best way to buy, manage and view the Flag State and technical library information vessels need.

Easier and more compliant. A simpler way to access technical publications on board. Providing IMO, Intertanko, SIGTTO, and many other titles, using a global search facility to find information quickly and efficiently.

A more cost-effective way to buy. Tailor this library to your vessel needs, paying for only what you need.

Witherby eBooks is available standalone or as part of Voyager PLANNING STATION.

DVD based to satisfy Flag and IMO requirements for the carriage of nautical publications. For management office use, an online version provides 24/7 access.

Our service offerings:

Unlike some other digital publication options, Witherby eBooks can be tailored to each vessel's specific compliance needs and there's no annual subscription so you only have to re-buy when a relevant New Edition is published - making it much more cost efficient.

Witherby Seamanship Library gives you access to a comprehensive set of technical publications and Flag State Regulations. Choose from over 600 technical titles from leading maritime publishers tailored to each vessel's Flag and Class and unlock additional titles at any time.

Technical Library Content

- Get fast access to additional publications at any time.
- Easier, more efficient navigation compliance.

Flag State Regulations

- Search and view up to date regulations.
- Ensure vessels have up to date access to Notices and Circulars.
