Voyager GLOBAL FLEET

Until now, it's been hard for ship suppliers to get access to the data they needed to target their sales and marketing activities effectively. It's also been difficult to optimise service, maintenance and support resources to meet customer needs. Voyager GLOBAL FLEET service changes all that.

With Voyager GLOBAL FLEET, for the first time, you can now access a rich, continuously updated maritime database to help improve sales targeting and performance, increase operational efficiencies, improve customer understanding and enhance customer care.

5 ways Voyager GLOBAL FLEET can help your business

- Identify new prospects, focus sales and marketing efforts using over 100 different search criteria.
- Improve prioritisation using live destination port and ETA data.
- Enhance after-sales care by predicting and scheduling servicing based on sea hours, miles sailed and port call data.
- Use vessel characteristics, compliance records and sailing area data to identify customer needs and offer more tailored solutions.
- Offer more accurate pricing using detailed sea hours, historic trading and port call information.

More than 1.4 billion data points in Voyager GLOBAL FLEET provide a detailed view of every IMO registered vessel in the world over a rolling 3-year period. Information can be easily searched, filtered, manipulated and viewed to meet business requirements based on over 100 search criteria including:

Vessel data	Owners data
Class	Owner/Group owner Manager
Flag	Operator
Size	DOC holder
Type	Type
Build date	Live voyage data
Live voyage data	Inspection dates
Current position	Defects
Departure port	Detentions
Destination port	Asset utilisation data
ETA	Sea hours
Historic trading data	Nautical miles sailed
Vessel routing	Port turnaround times
Port calls	
Special sailing areas	

Bring your own data

You can even add your own data to enhance your Voyager GLOBAL FLEET experience.
