

## eBook. An easier way to manage digital nautical publications.

Voyager eBook offers a faster, smarter and more cost-effective way to access nautical publications.

### The easy choice for switching your nautical library to digital

The new nautical eBook platform gives you access to an extensive library of nautical publications in one consistent way. Access all IMO Codes and Conventions, Flag Circulars, Regulations and Notices plus titles from OCIMF, Intertanko, Intercargo, International Chamber of Shipping, SIGTTO, USCG and more.

### A new standardised approach for maritime eBooks

A common approach nautical publications provides a consistent (and great) crew experience. It also simplifies bridge procedures and makes crew training and IT support easier to manage.

### Easy to use. Anywhere

An elegant user interface design, logical categorisation and simple search facility make it faster and more efficient to find nautical publication information required. Use anywhere from bridge to engine room (as well as ashore) on PC, laptop and tablet.

### Full integrated with your Voyager toolset

Access and order eBooks from VPS dashboard with integrated order approval via Voyager Fleet Insight. Technical Library orders instantly updated in your free VFI Compliance module to provide full visibility, onboard at all times making purchasing and compliance management simpler.

### A more cost-effective way to go digital

The new eBooks are available within a choice of navigation packages or to buy as standalone New Editions to make Technical Library purchasing even easier.

**Safe. Port to Port.**
